

Masters with Masters

The Academy of Program/Project & Engineering Leadership presents “Masters with Masters,” a series that brings together two master practitioners to reflect on their experiences, lessons learned, and thoughts about upcoming challenges.

The Academy has developed “Masters with Masters” as part of its ongoing efforts to create a cohesive community of project management and engineering practitioners across NASA. This series will engage master practitioners in a conversation that yields fresh insights and promotes reflection and open sharing.

Special Guest Speakers:

Bobby Braun

NASA HQ, Chief Technologist, Chief Technologist Office

Steve Altemus

Johnson Space Center, Director, Engineering Directorate

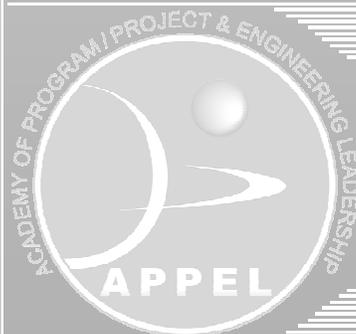

Topic: Risk Management and Engineering

When: Monday, September 13, 2010

Time: 2:00 p.m. – 3:30 p.m., EST

Where: NASA Headquarters, Auditorium
300 E St SW Washington, D.C.

Please RSVP to Mai Ebert, mai.ebert@asrcms.com
